

## Agrochemical Physical Compatibility Guide

These tank mixes have been tested for physical compatibility at recommended rates of use and will mix with each other. No tests have been undertaken on crop safety, product performance or sprayer tank compatibility, therefore use is at the grower's own risk. When using tank mixes always follow the statutory conditions of all tank mix partners. Use plant protection products safely. Always read the label and product information before use. The tables contain sections on agrochemical active ingredients that have been tested, the OME X range of products and tank mixes known to be incompatible; please pay particular attention to this final section.

### Tank Mix Guidelines

Ensure sprayer tank is clean and free from residue of any previous products • Half fill the sprayer before adding products. • Allow time for one product to fully disperse before adding the next. • Spray the mixture straight away and avoid leaving in the sprayer overnight. • Check the inside of the sprayer tank for any residue after emptying each tank. • The source and quality of water can have an impact on the physical compatibility of different chemicals • If in doubt conduct a bucket test prior to filling the sprayer.

For further information on OME X products and compatibilities, refer to [www.omex.co.uk](http://www.omex.co.uk) or contact OME X Agriculture Ltd on **01553 760011**.

## Folex B

Physically Compatible	
Third party products (active ingredients)	OMEX Range
Abamectin	Biomex Starter
Alconifen	Kelpak
Bentazone	Kickstart
Benzovindiflupyr	Vitomex
Chlormequat	Foliar Supreme
Clopyralid	High N
Clopyralid + triclopyr	Micromex
Cyazofamid	Folex Cu
Cymoxanil	Folex K
Cymoxanil + Fluazinam	Folex Mg
Cymoxanil + Mancozeb	Folex MU 35
Difenoconazole	Folex N
Dimethenamid-p + Quinmerac	Folex P
Flonicamid	Folex PZ
Florasulam	Folex Se
Fluopyram	Folex Zn
Fluxapyroxad	Oilseed Extra
Folpet	Protein Plus
Imazamox + Quinmerac	Sulphomex
Iodosulfuron-methyl-sodium + Mesosulfuron-methyl	Gard S
lambda-cyhalothrin	Kelpland
Mandipropamid	Kelpomex
Mefentrifluconazole	Organomex Range
Mepiquat (as chloride), prohexadione calcium and pyraclostrobin	DIDIN
Mesotrione	Polymex
Metazachlor	NA13
Metconazole	SW7
Metrafenone	Zynergy
Metrafenone 300g/L	
Metribuzin	
Metsulfuron - methyl +tribenuron-methyl	<b>The following products are PHYSICALLY INCOMPATIBLE or NOT RECOMMENDED</b>
Nicosulfuron	
Picolinafen + Flufenacet	
Pinoxaden	CalMax
propyzamide + aminopyrolid	CalMax Ultra
Prosulfocarb	3X Solution
Pyraclostrobin	Bio20
Sulphur	Bio18
Tebuconazole	K50
Trinexapac-ethyl	Magnesium Plus
	SuperMn
	Manganese 17.5%
